## Why use a greenhouse?

### A sustainable and satisfying way to garden

For Australian gardeners nothing compares to a backyard greenhouse. It not only extends your gardening to all seasons, but allows you to grow plants that would normally never live outside of their native regions.

The growing popularity of gardening suggests that more people are needing to find relief from our fast paced, modern lifestyle - even our children - and get back to basics. Besides the enjoyment of gardening all year round, greenhouses are the perfect way to make sure you are able to rapidly produce healthy, organic fruit, vegetables and herbs for the entire family.

Being able to garden whenever you want, whatever the weather, is the real benefit of having a greenhouse. They allow for a more controlled and therefore more efficient growing environment. Pests and weeds can be virtually eliminated from damaging your plants and you can reduce your water usage with targeted watering and no loss through evaporation.

### Other products

Lean-To Greenhouse

Cold Frames

MINItanks

Greenhouse Accessories

## Available Through Special Orders

# Crystal clear Greenhouses

Hinged door can be assembled either left or right side

Sliding panel assembly system - panels will not pop out

Magnetic door catch

Unique gutter system allows you to harvest your own rainwater.

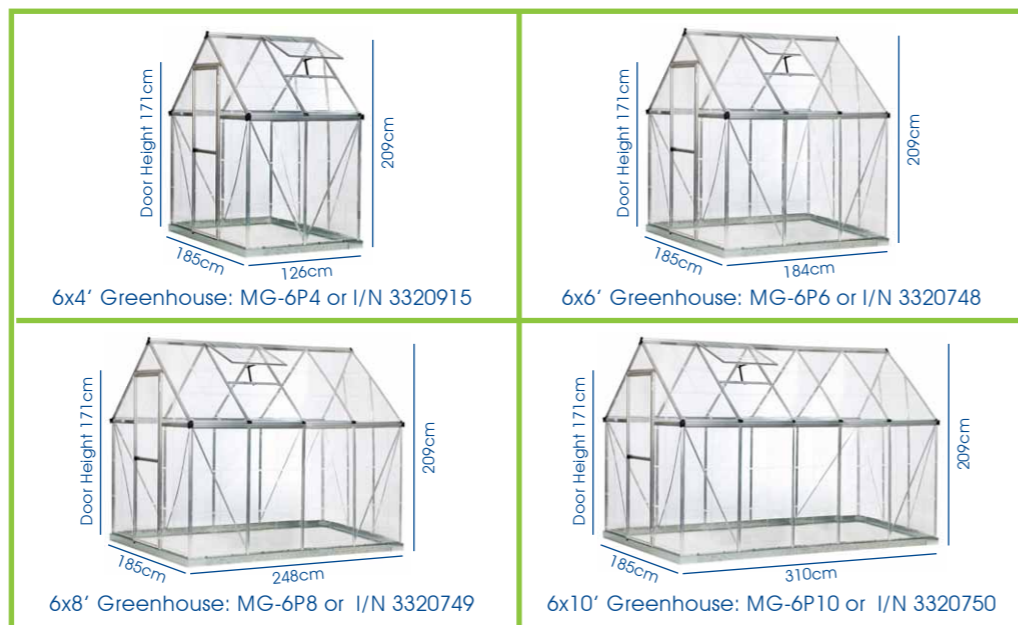

## Grow your own fruit and vegetables all year round in a Maze Greenhouse

Maze Greenhouses are constructed from strong aluminium frames and panels of almost unbreakable polycarbonate - so clear you'll think they're made of glass. Polycarbonate has greater insulation properties than glass, providing more constant temperature and humidity levels. The panels are UV treated so harmful UV rays are blocked, protecting internal equipment like gardening tools from any damage.

Climate can be further controlled by opening or closing the vent and / or door. The Greenhouse gardening experience can be completely customized to suit individual needs with a range of accessories. Innovative designs and materials make them easy to construct, long lasting and enjoyable to use. Once assembled, the Greenhouses are maintenance free.

### Greenhouse Features

- Virtually unbreakable clear polycarbonate panels
- Panels are 100% UV protected
- Allows 90% light transmission
- Strong, rust resistant aluminium frame
- Secure magnetic door catch
- Roof vent included for air circulation and climate control
- Includes dual rain gutters for water collection
- Galvanized base frame included
- Comes with a 5 year warranty (conditions apply)
- Made in Israel

# More gardening innovations

## Lean-to Greenhouse

Great for small gardens, balconies and courtyards

### Features

- Sliding door can be assembled left or right side
- Galvanized steel base included
- Comes with a 5 year warranty (conditions apply)
- Maintenance free
- Roof vent and gutters included
- \*Workbench not included

Lean-to Greenhouse MG-L2P4 or I/N 3320751 Workbench MGA-BENCH or I/N 3320753

## Cold Frame - Single and Double

Protect crops from pests and frost

- High impact crystal clear lid - maximum light transmission
- Rust resistant aluminium frame
- Hinged lids for easy access and ventilation

Single MG-CF or I/N 3320878  
Double MG-CFD or I/N 3320879

Sizes on the back

## Grand Propagator Sun Tunnel

- Crystal clear lid for maximum light transmission
- 100% UV and weather protected
- High impact resistant
- High lid to aid germination
- Sliding-touch lid ventilation

MG-PRP

- Crystal clear for maximum light transmission
- 100% UV and weather protected
- High impact resistant
- Sloping lid allows rain run off
- Vents for air circulation control

MG-ST

# Greenhouse Accessories

Customise your space

Make gardening easy, efficient, comfortable

### Shelves Kit

- Clamp-on hanging system
- Holds up to 20kg
- 2 shelf parts, brackets and fixing screws
- Easy to re-position

MGA-SHELF or I/N 3320752

### Work Bench

- Durable, galvanized steel
- Holds up to 150kg
- Two tier shelving system for plant staging
- Adjustable lower shelf height
- Flip top shelf can be used as a soil tray

MGA-BENCH or I/N 3320753

### Shade Kit

- Protect plants from over exposure to the sun
- Prevents damaging heat build up
- Allows 70% light transmission
- Measures 230cm x 265cm

MGA-SHADE or I/N 3320755

### Vent Kit

- Control and increase air flow
- Strong, rust resistant aluminium frame
- UV protected clear polycarbonate panel
- Can be easily added to existing Greenhouse

MGA-VENT or I/N 3320757

### Automated Vent Arm

- Automatically opens in warm weather
- Closes when temperature cools
- Adjustable temperature setting for opening
- Mechanical system - no electricity needed

MGA-AUTOV or I/N 3320758

### Plant Hangers - Pack of 10

- Use more of the available space
- Hang baskets, pots or trellis plants
- Use to attach Shade Kit
- Easy to re-position
- Insert into aluminium profile channel and twist to install

MGA-HANG or I/N 3320756
