

*A round-up of new products green and smart*

*Grow your  
own veggies*

**T**he Maze Greenhouse comes in a range of different sizes compact enough to fit in almost any backyard, so users don't even need a garden just a small designated area.

The Maze Greenhouse enables the growing of large healthy fruits, vegetables and/or flowers all year round. It has a vent window included for air circulation to balance

humidity and temperature. The Greenhouse is maintenance free, 100 percent UV protected and made from a rust resistant aluminium frame and virtually unbreakable crystal clear polycarbonate panels. There is a high ceiling, so it has extra headroom and eaves, which is designed to create a comfortable and enjoyable working space.
