

# Repurposing Art

## TOILET PAPER ROLL MAZE GAME

### Purpose:

Recycling teaches children to care about the environment and understand that resources are not limitless. Making art is a fun way to explore this concept

### Tools:

A cardboard box, Toilet paper rolls, Duct tape in a variety of colours, A bouncy ball

### Method:

Prepare the box. You will want a smooth surface for the ball to roll on. Cut any flaps off the top of the box to create a nice flat bottom.

Wrap each of the toilet paper rolls in a different colour of duct tape. Each roll is attached to the box with a loop of duct tape. Add the bouncy ball to the box and move the box around to enable the ball to go through the maze of toilet paper rolls
